1984 ELEMENTARY AND SECONDARY SCHOOL CIVIL RIGHTS SURVEY

1968-1984 TIME SERIES FILE DOCUMENTATION

I. Introduction

This documentation is designed to accompany the Elementary and Secondary School (E&S) Civil Rights Survey 1968-1984 Time Series file. The file was created by DBS Corporation under subcontract to Opportunity Systems Incorporated under contract number 300-84-0236. The file contains selected data, aggregated to the district level, for all survey years (1968-1974, 1976, 1978, 1980, 1982 and 1984.)

The Time Series file provides the analyst convenient access to the survey data collected from previous E&S surveys. Each record on the file corresponds to the data for a single district from a single survey year. The data sources were the individual survey master files for the years 1968-1974, 1976, 1978 and 1980; and the individual district summary files for the years 1982 and 1984. The Time Series file was originally constructed as a product of the 1980 E&S Survey. The construction of the Time Series file thereafter was accomplished by adding the additional data records corresponding to the districts reporting in the 1982 and 1984 surveys.

When using the Time Series file for longitudinal (across years) analysis, three factors should be considered:

- data definitions used on the survey form varied from year to year
- survey scope and extent of coverage varied from year to year
- the composition of a district, in terms of the number of schools and students, varies from year to year.

With respect to the first factor, copies of all survey forms are included in Appendix A. Before using a particular data element, the user is encouraged to review the item involved on the survey form.

The second factor requires that the user understand that the individual surveys were samples and the scope of coverage of the universe of public schools varied from year to year. As a consequence, longitudinal analysis for individual districts is not possible for most of the surveyed districts. Survey year 1976 did involve a complete universe for the district level forms; however, not all districts were required to submit school forms for the schools within the district. For year 1976, therefore, a disparity exists in many instances between the pupils in membership data aggregated from the school forms within a district (data are zero for districts not submitting school forms), and the pupils in membership data reported on the district form.

The third factor is more complex. In general, the district OE code is used to track districts across years. Districts, however, do not remain static and the following types of changes may occur:

1. Consolidations - two or more districts combine to form one larger district
2. Divisions - a larger district divides to form two or more smaller districts
3. Annexations - a portion of one district is transferred to another district
4. Additions - one or more new schools are added to a district
5. Closings - one or more schools are closed in a district.

In general, new OE codes are assigned after a consolidation or division occurs. However, there is no standard methodology for handling the other types of changes. Historically, the National Center for Education Statistics (NCES) has been responsible for maintaining universe files which attempt to keep track of all districts. Each year, the states are requested to provide updates to the file. Each state has different criteria for assigning new codes and these criteria may vary from year to year. Hence, one state might regard a sudden increase in enrollment and schools (due to the building of a new subdivision for example) as a significant change which warrants an OE code change. Another state, with the same situation, may choose not to assign a new code.

To further complicate matters, no information is available to track changes in OE codes. When a new code is assigned, the old code(s) is not maintained. Hence, there is no simple way to trace changes.

In creating the Time Series file, districts were matched across years on the basis of OE codes only. Where problems arose (bad OE codes, duplicate OE codes, etc.), they were resolved, if possible, using the NCES universe file. Appendix B lists all OE codes on the Time Series file along with information which may assist users interested in tracking a particular district.

Exhibit 1 presents a list of the number of districts reporting for each state for each survey year.

II. Technical Specifications for Using the File

The 1968-1984 Time Series file is stored on a sequential data file. The file was created using the Elementary and Secondary School Civil Rights Survey data files from 1968 to 1984. For the 1968 to 1980 surveys, the information was taken from the 101 district form or aggregated from the 102 school forms within each district. For the 1982 and 1984 surveys, the information was taken from the survey's district summary file, which contained the required district level data.

The remainder of this section is divided into four sections:

- A. File Structure - describing the contents of a record, the sort of the file, etc.
- B. File Access - describing FORTRAN and SAS code required to read and use the file
- C. Data Projection - describing the method used to obtain state, regional and national projections
- D. Statistics - including number of records on file, JCL parameters required, etc.

A. File Structure

Each record on the Time Series file contains information for one district in one survey year. The records are sorted in ascending order on district OE (Office of Education) code and year within districts. The district OE code is a seven digit code, the first two digits of which are the state OE code. Exhibit 2 is a list of state OE codes. The last five digits of the district OE code uniquely identify each school district with a state. The district code within a state provides an approximate alphabetical order for district names.

Each record is in the same format regardless of year. If a data element was not collected in a given year, the element is set to zero.

Data elements within the record are identified by a word number. In general, a data element requires one word, with the exception of an alphanumeric data field which may take several words, e.g. the district name takes 8 words. This results from the fact that one word corresponds to one four-byte computer word and may therefore contain:

- An integer number (e.g., 1, 7765, 7611523)
- A real number (e.g., 0.001, 7.6, 391.25, etc.)
- Any four alphanumeric characters (e.g., ABCD, AB2C, etc.).

For SAS programs, the contents of a four-byte computer word correspond to the SAS formats IB4., RB4., and \$CHAR4., respectively.

The file directory, given in Appendix C, describes the contents of each word and indicates the corresponding item number from each survey form (an N/A appears if the element was not collected in a given year). The byte location corresponding to each word is also provided, since this information is of particular value to SAS programmers who wish to use the sequential file. Referring to Appendix C, for example, the directory indicates that word 51 of the Time Series record contains the number of American Indian pupils expelled.

The corresponding form item was not collected for years 1968, 1969, 1970, 1982 and 1984. For the remaining survey years, the corresponding form item was collected from the district form, except for survey year 1976, which collected the pupils expelled data on the school form.

It should be noted that in 1968-1973, many "totals" were not maintained and were therefore computed for the Time Series file. In later years, "totals" were maintained as reported. These reported "totals" were used for the Time Series file and may not, therefore, agree with the total as computed by race/ethnicity and/or by sex. In many cases, the computed total by race/ethnicity did not agree with the computed total by sex and there was no way to determine which was correct.

B. File Access

As mentioned previously, the data is stored in a sequential file. Each record on the file contains all the information pertaining to one district for one year. Records may be easily accessed using any computer language, including SAS. Described below are access techniques using FORTRAN and SAS. Exhibits 3 and 4 demonstrate the access techniques to read the file using FORTRAN and SAS, respectively.

FORTRAN

Records are accessed by using a FORTRAN unformatted read. Referring to Exhibit 3, RECORD is the integer array into which each record is read. (Notice that RECORD is dimensioned to 280 which corresponds to the last number used as identified in Appendix C, File Directory.) Whenever the READ statement is encountered, another record will be entered into the array. The data for a single record may now be processed by inserting the appropriate code in the section labeled "PROCESS TIME SERIES RECORD". To address a particular data element, simply subscript RECORD with the word number, given in Appendix C, for the data element of interest.

For example, if one wished to print the year, district name, minority pupil membership and a computed total pupil membership (as reported on the district form), one would refer to Appendix C to determine:

- Word 1 - Year
- Words 3-10 - School system name
- Word 33 - American Indian, pupils in membership
- Word 34 - Asian/Pacific Islander, pupils in membership
- Word 35 - Hispanic, pupils in membership
- Word 36 - Black, pupils in membership
- Word 37 - White, pupils in membership.

The following code might then be inserted in the section of code labeled "PROCESS TIME SERIES RECORD:"

```
MINPUP = RECORD(33) + RECORD(34) + RECORD(35) + RECORD(36)
```

```
NUMPUP = MINPUP + RECORD(37)
```

```
WRITE(6,10) RECORD(1), (RECORD(1), I=3,10), MINPUP, NUMPUP
```

```
10 FORMAT ( ' ',I4,1X,8A4,2I10)
```

After processing all data, control of the program in Exhibit 3 will go to 900. At this point any wrap-up processing, such as the printing of accumulated state or national totals, could be performed.

The file directory (Appendix C) contains two elements, which represent sample weights and are indicated as data type "REAL" (real number). These two elements require a modified FORTRAN access method. Real variables must be declared and an EQUIVALENCE statement used to equate each real variable with the appropriate word. Referring to the sample FORTRAN program in Exhibit 3, the following real variables are declared:

WEIGHT - sample weight (word 277)

SUBWGT - sub-sample weight for sub-sampled schools (word 280).

The FORTRAN EQUIVALENCE statement is used to equate the real values to the corresponding word values of RECORD. The user wishing to use the above named real values should access such values by the corresponding real variable names rather than by subscripting RECORD.

SAS

Records are accessed by using the SAS INPUT statement. Since SAS input is character or byte address based, the word numbers of the data elements must be converted to the corresponding byte number. The file directory (Appendix C) provides this information under the "BYTE" column. The SAS format "IB4." is used to input numeric or integer values; format "RB4." for real numbers; and format "\$CHARnn." for alphanumeric fields.

Using the example described above in the "FORTRAN" section, the following SAS code may be used to print the year, district name and minority and total pupil memberships:

```
INPUT
  @1  YEAR      IB4.
  @9  DISTNAME  $CHAR32.
  @129 (MEM_AI MEM_AS MEM_HI MEM_BL MEM_WH) (IB4.);

MEM_MIN = MEM_AI + MEM_AS + MEM_HI + MEM_BL;

MEM_TOT = MEM_MIN + MEM_WH;

PUT
  @1  YEAR      4.
  @6  DISTNAME  $CHAR32.
  @38 MEM_MIN   10.
  @48 MEM_TOT   10. ;
```

Most SAS users of the Time Series file can create a SAS data base to save the information required from the Time Series file before proceeding with the actual analysis or processing of the data.

C. Data Projection

The sampling methodology used for the even year surveys (with the exception of 1982) produced survey samples projectable to the state, regional or national level. The odd year surveys (1969, 1971, and 1973) were not statistically valid samples and may not, therefore, be projected. The sample weights (word 277) of the odd year surveys were assigned zero values. Survey year 1982 used a sampling methodology inconsistent with proper projectability; therefore, projections based upon the assigned sample weights alone will not produce adequate results. Projections are to the universe of all public school districts.

The survey data is projected by first multiplying the district summary data elements by the corresponding district's sampling weight and then aggregating to the required state or national level.

The following FORTRAN code could be used to project the total minority enrollment (aggregated) from the Time Series record:

```
MINPUP = RECORD(33) + RECORD(34) + RECORD(35) + RECORD(36)
```

```
MINPUP = INT(FLOAT(MINPUP)*WEIGHT+0.5)
```

```
TOTMIN = MINPUP + TOTMIN
```

where the following FORTRAN data type statements apply:

```
INTEGER MINPUP, TOTPUP, RECORD(280)
```

```
REAL WEIGHT
```

```
EQUIVALENCE (RECORD(277), WEIGHT)
```

Note that the sampling weight is a real number. It is often necessary to round off the projected numbers since a real number is being used to project what are realistically integer values, e.g. students or schools.

D. Statistics

The following is a summary of some of the statistics of the 1968-1984 Time Series file:

- Number of records on file:	68,546
- Maximum word number used:	280
- Record length in words:	300
- Data set name (DSN)	OCR.TIMESER.Y68Y84
- DCB parameters:	RECFM = VBS
	LRECL = 1204
	BLKSIZE = 12044
	DEN = 4

III. Problems Encountered

During the original creation of the Time Series file, several problems were encountered on the historical files including missing district records, duplicate records, duplicate codes, etc. In resolving these problems, the policy was to conform, where possible, to the NCES universe files.

A. Duplicate OE Codes

The 1968-1970 survey files contained several instances of duplicate OE codes. It should be noted that the original early files did not have OE codes; these codes were placed on the files during the processing of the 1972 survey. Therefore, the possibility for duplicate OE codes is consistent with the problems encountered in placing current codes on historical files.

Exhibit 5 lists the districts which were reassigned OE codes because of duplicates on file. The reassigned codes are consistent with the NCES files from the relevant time frame.

B. Duplicate Records

The 1968 file contained duplicate (or near duplicate) sets of district and school records. The districts were:

- Rome (OE code 4224900) with 21 schools
- Southwestern (4227660) with 6 schools
- Sachem (4225350) which had one set with 11 schools and one set with 12 schools.

For Rome and Southwestern, one set of district and school records was deleted. For Sachem, the set with 12 school records was deleted to be consistent with the 1968 Directory.

C. Missing or Out-of-Order District Records

The 1968 file contained two instances where the district record did not precede the school records; Gering City Schools (3770920) and Lincoln County High School District (3616755). These records were moved to their proper position.

In addition, the 1968 file had one missing district record. A record was added containing OE code (6004830), Name (Newcastle #01), City (Newcastle), and County (Weston). All other district data was set to blanks or zeros.

The 1969 file also had a missing district record. Again, a record was added containing OE code (6001980), Name (Laramie County School District), City (Cheyenne), and County (Laramie).

D. Bad District Records

There were several "bad" district records on the 1971 and 1972 file. "Bad" district records were defined as district records, containing only OE code and name, which were not followed by any school records. Such records, listed in Exhibit 6, were deleted.

E. Inconsistent OE Codes

As indicated earlier, OE codes often changed because a school was added or deleted, enrollment changed radically, a division occurred, etc. On the 1968-1978 Time Series file, 22 OE codes were reassigned to correspond to the 1978 code. In many cases, the NCES files indicated that the codes had indeed changed. For the 1968-1980 Time Series file, OE codes were not reassigned unless the original code was inconsistent with NCES. The 1968-1982

and 1968-1984 Time Series files made no changes of OE codes.

Exhibit 7 summarizes findings and actions taken regarding the 22 districts. There are probably many more OE changes that could be investigated.

Finally, the 1969 file contained an incorrect OE code for Dearborn Heights. On the original file, it was 3211580 and it was changed to 3211610.

More information on tracking district changes is available from NCES in School District Changes: Tracking and Identification, prepared by DBS Corporation, August 1977.

F. New York City, 1974

The 1974 district record for New York City was statistically generated rather than reported. Several hundred schools from the New York City district did not respond to the 1984 E&S Survey and a district form was not submitted. The user of the Time Series file must use New York City's 1974 data with caution. Data elements, whose data source is the school form, are underestimates of the true values since they are aggregates of the reported school data. Data elements, whose data source is the district form, are statistically projected estimates of the true values.

- ITEM VII. OPTIONAL ITEM: PART-TIME Professional Instructional Staff members working less than full-time at this school campus.**
Do NOT report these individuals in Item VIII below.
- ITEM VIII. FULL-TIME Professional Instructional Staff assigned to this school campus on a full-time basis:** Please enter in the appropriate line and column the number of full-time professional instructional staff members assigned to this school campus on a FULL-TIME basis. These are the professional instructional staff members whose current assignments require their services at this school campus for the whole school day, every day. - LINE E.** Enter the sum of VIII. A, B, C, and D for each of the six columns.

ITEM IX. For this question, the grade level of any instructional group is considered to be the grade level of the predominant number of pupils in that instructional group (See Example 3).

Examples of answers to this question:

- Example 1:** If all four sections of the first grade contain no minority pupils (Cols. 1 through 4 of Question VI), place the number "4" in IX A and in IX B, Col. 7 ("0 - 19% Minority"), and in IX B, Col. 11.
- Example 2:** A seventh grade, having three sections, has the following breakdown:

	Minority Pupils	Other Pupils	Total Pupils	% Minority
Section 1	16	13	29	55%
Section 2	5	28	33	15%
Section 3	28	7	35	80%

In this example, Item IX would be answered in the following manner:

A.

3					
Col. 11					
Total Number of Groups (Sum of Cols. 7, 8, 9, 10 and same number as IX.A. above)					
B.	Col. 7 0 - 19% Minority	Col. 8 20 - 49% Minority	Col. 9 50 - 79% Minority	Col. 10 80 - 100% Minority	
	1	0	1	1	3

- Example 3:** The lowest grade at Shipley Senior High is the tenth grade. Shipley has three classes in Home Economics with 30 pupils in each. In one, there are 16 tenth graders and 14 eleventh graders. Since the tenth graders predominate in this class, it would be reported in Item IX.
In another, there are 14 tenth graders and 16 eleventh graders. In this class, the eleventh graders predominate and so this class would NOT be reported in Item IX.
The third Home Economics class has 15 tenth graders and 15 eleventh graders. Neither grade level predominates and so this class would also not be reported in Item IX.

- ITEM X.** For the purpose of this question additions do not include: temporary structures, such as mobile classrooms, or structures which do not accommodate increased student capacity at this school campus, such as auditoria, gymnasium, or school library.
- ITEM XI.** Report the number of pupils currently in membership at this school campus who were transported at public expense to this school campus today. As with membership data, this question should be answered as of October 1, 1970, or the nearest date to October 1. Do not include field trips, trips to athletic events or other trips of a similar nature.

SUBMISSION OF REPORT: It is the responsibility of each school system to submit this report by October 15, 1970. If the report is completed at the individual school campuses, it should be returned to the superintendent's office for forwarding to HEW. Before submitting this report, check the accuracy and completeness of each item, particularly the totals. Errors or omissions may require a re-filing of the form.

This report is required pursuant to the NEW Regulation (45 CFR 80) issued to carry out the purposes of Title VI of the Civil Rights Act of 1964. Section 80.6(b) of the Regulation provides:

Compliance Reports. Each recipient shall keep such records and submit to the responsible Department official or his designee reports at such times, and in such form and containing such information as the responsible Department official or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this Regulation.

ITEM XI. NATIONAL SCHOOL LUNCH PROGRAM is a U.S. Department of Agriculture program under which general cash-for-food assistance and special cash assistance are made available to schools that agree to provide lunches of a specific USDA standard in accordance with specific rules and regulations.

In order to complete Items A, B, and C, existing records may be supplemented by a head count of the pupils.

- Report the number of pupils receiving a Type A meal regardless whether it is paid for or is on a free or reduced price basis. Type A lunch refers to a specific USDA standard of food components for a lunch that generally is equal to or exceeds one third of the daily nutritional requirements of a child.

Free lunches are those for which neither the child nor any member of his family pays nor is required to supply an equivalent value in work for the school or the school's lunch program.

Reduced price lunches are those that meet each of the following criteria:

(1) The price shall be less than the full price of the lunch; (2) The price shall be 20 cents or lower; and (3) Neither the child nor any member of his family shall be required to supply an equivalent value in work for the school or the school's lunch program.

Do not include field trips, trips to athletic events or other trips of a similar nature.

ITEM XIII. Departmentalized instruction is the organization of instruction in such a manner that teachers specialize in one or two subject-matter areas and give instruction in these areas to several classes. English language arts refer to all courses in subject-matter areas such as language skills including reading, linguistics, literature, composition, speech and dramatic arts.

ITEM XIV. PUPIL ASSIGNMENT WITHIN SCHOOL: Answer questions XIV A or B for grades 3, 6, 9, and 12 if taught at this school campus. If none of these grades is offered or if the school is partially ungraded, answer for the lowest grade offered except pre-kindergarten and kindergarten. If the pupils in a grade have departmentalized instruction in English language arts and also self-contained classroom instruction, answer only XIV B for that grade.

Report the entire section if that section has at least one pupil in the grade specified. For example, if there are five grade-three pupils in a section with 25 grade-four pupils, report all 30 pupils in that section. In this example mark "3" and "4" in Grade Level column.

If the school is totally ungraded, consider as a section each instructional grouping during the first half hour of the day and report all sections regardless of the subject matter. Report the number of pupils in each section (instructional grouping), separately. Enter "ungraded" in the Grade Level column and identify each section within the school by name or number.

The section name and/or identification number should be the name and/or identification used by this school to differentiate between instructional groupings (for example, English 9-a or Min Jane Jones' Section).

If additional space is required, continue on Form OS/CR 107-A Individual School Campus Report Continuation Sheet. Use as many continuation sheets as required and attach the sheets to this report. Enter in the space provided, the number of continuation sheets attached.

See Item II instructions below for the definition of an individual school campus.

Pupil membership and staff data should be as of October 2, 1972, or the nearest possible date to October 2 when membership can be considered stabilized.

This report is due October 16, 1972. If the report is completed at the individual school campus, it should be returned to the superintendent's office in time to be forwarded to HEW by October 16.

Please use a typewriter or print lightly. Make certain the information is clear on all copies.

Even if the forms are pre-labeled, all of Items I-V must be completed.

ITEM I. Use the school system name your State uses in its published official listing of its school districts.

ITEM II. State the name of the school campus covered by this report. If a school has classroom facilities in more than one geographical location, an Individual School Campus Report must be filed for each separate location.

ITEM III. Give the street address of the school campus covered by this report.

ITEM IV. Complete the address. Do not forget to give the zip code.

ITEM V. Put an "x" in EVERY box which indicates a grade offered at this school campus. If the school is totally or partially ungraded, do not check the grades covered by the ungraded span. For example, if the school is an entirely ungraded elementary school, check only "Ungraded." If an elementary school offers grades 1 and 2 individually and grades 5 and 6 in an ungraded structure, then check "1", "2" and "Ungraded."

Column Headings

Col. 6: Totals: Add all individuals entered in Cols. 1-5.

ITEM VI. Please report stabilized Fall 1972 pupil membership data. Enter the number of pupils in each category. Racial/ethnic categories are considered mutually exclusive; count an individual in only one racial/ethnic category. If there are no persons in a category, enter "0" for the category. Do NOT use percentages, average daily attendance, average daily membership, or year-end enrollments.

Do not report adults.

If students are full-time in system and part-time at more than one school, count them at their home-based school only.

ITEM VII. Report in each column the number of pupils who were not promoted at the end of the last school term. Report only those pupils who were assigned to the same grade this school term as the last. Do not report those pupils who were promoted but are repeating a particular subject. If this school is entirely ungraded this question is to be omitted and enter "Not Applicable." If this school is partially ungraded, report the information for the graded portion. If no students were retained, enter "0".

ITEM VIII. Report the number of pupils in each of the grades 3, 6, 9, 12 and special education. If none of the grades 3, 6, 9 or 12 is offered, report the number of pupils in the lowest grade offered except pre-kindergarten and kindergarten, and name the grade. If this school is entirely ungraded this question is to be omitted. If this school is partially ungraded, report the information for the graded portion.

ITEM IX. FULL-TIME Professional Instructional Staff assigned to this school campus on a full-time basis: Please enter in the appropriate line and column the number of full-time professional instructional staff members assigned to this school campus on a FULL-TIME basis. "Professional Instructional Staff" includes: Classroom teachers; principals; assistant principal.; and those staff members who are supervisors of instruction, curriculum consultants, school librarians, non-classroom teachers (homebound, etc.), audio-visual staff, T.V. teachers, guidance counselors, and school psychologists.

Special education, art, and music teachers should be reported in one category or the other - not both.

LINE A. Classroom Teachers: Report the number of FULL-TIME classroom teachers. These are the professional staff members who instruct pupils in courses in classroom situations. Include art, music, band, physical education, and home economics teachers, etc., as classroom teachers if they teach full-time at this school campus. If the principal teaches at all, enter the principal as a teacher and not as a principal. The same applies to teaching assistant principals.

A.1. & A.2. Report each classroom teacher at the level that represents the teacher's major assignment. Use the local school system's definition of elementary and secondary. If a teacher has responsibility at both the elementary and secondary levels, report the teacher at one level only. Do NOT report the teacher as 1/2 elementary and 1/2 secondary.

A.3. OTHER applies to FULL-TIME classroom teachers who teach ungraded classes, special education, art, music, band, physical education, home economics, etc. who have NOT been included in the above A.1 and A.2.

Do NOT include: Staff members who work at this school campus on a part-time basis; para-professional staff members, such as teacher's aides and student teachers; and non-instructional staff members, such as business, financial, professional health personnel (doctors and nurses), school social workers, transportation, clerical, custodial, food service, and attendance personnel.
- LINE E.** Enter the sum of IXA.4, B, C, and D for each of the six columns.
- LINE F.** Report the number of full-time professional instructional staff newly hired at this school campus between October 1, 1971 and September 30, 1972. Do NOT report staff who transferred to this school campus from another school within this school system. If there was no new full-time hiring, enter "0" on this line.
- LINE G.** Report the number of unfilled full-time professional instructional staff positions at this school campus as of the date this report is completed. If there is no vacancy, enter "0" in this box.

ITEM X. PART-TIME Professional Instructional Staff members working less than full-time at this school campus. Do NOT report these individuals in ITEM IX above.

ITEM XI. Report the number of pupils currently in membership at this school campus who were transported at public expense to this school campus today. As with membership data, this question should be answered as of October 2, 1972, or the nearest possible date to October 2. Do not include field trips, trips to athletic events or other trips of a similar nature.

Include also pupils who are currently paying their own transportation expenses, but will be reimbursed from public expense funding. If there are no pupils bused, enter "0" in this box.

ITEM XII. Departmentalized instruction is the organization of instruction in such a manner that teachers specialize in one or two subject-matter areas and give instruction in these areas to several classes. English language arts refer to all courses in subject-matter areas such as language skills including reading, linguistics, literature, composition, speech and dramatic arts.

ITEM XIII. PUPIL ASSIGNMENT WITHIN SCHOOL: Answer question XIII A or B for grades 3, 4, 9, and 12 if taught at this school campus. If none of these grades is offered or if the school is partially ungraded, answer for the lowest grade offered except pre-kindergarten and kindergarten. If the pupils in a grade have departmentalized instruction in English language arts and also self-contained classroom instruction, answer only XIII B for that grade.

Pupil classroom groupings vary depending on the number of sections involved by the subjects taught. The same pupils may be grouped into various combinations depending on the subjects they take. Some multiple counting of pupils may result in this particular item.

Report the entire section if that section has at least one pupil in the grade specified. For example, if there are five grade-three pupils in a section with 25 grade-four pupils, report all 30 pupils in that section. In this example mark "3 and 4" in Grade Level column.

If the school is totally ungraded, consider as a section each instructional grouping during the first half hour of the day and report all sections regardless of the subject matter. Report the number of pupils in each section (instructional grouping), separately. Enter "ungraded" in the Grade Level column and identify each section within the school by name or number.

The section name and/or identification number should be the name and/or identification used by this school to differentiate between instructional groupings (for example, English 3-a or Miss Jane Jones' Section).

If a school offers team-teaching modular units (such is the case of schools offering only special education and/or Pre-K and K), annotate as such under the appropriate section identification.

If classroom groupings vary from day to day or week to week, report for the classroom groupings that exist on October 2nd or on nearest possible date to October 2nd.

If additional space is required, continue on Form OS/CR 103-A Individual School Campus Report Continuation Sheet. Use as many continuation sheets as required and attach the sheets to this report. Enter in the space provided, the number of continuation sheets attached.

If additional continuation sheets are needed, contact:

GENERAL INSTRUCTIONS: The Fall 1974 Elementary and Secondary School Civil Rights Survey consists of the following report forms: OS/CR 101 (School System Summary Report) and OS/CR 102 (Individual School Campus Report).

Pupil membership data should be as of October 1, 1974, or the nearest possible date to October 1, when membership can be considered stabilized.

This report is due October 15, 1974. Even if a district contains only one school, fill out two separate forms - one system form (OS/CR #101) and one school form (OS/CR 102).

Please use a typewriter or print legibly. Make certain the information is clear on all copies.

Even if the forms are pre-labeled, all of items I-V must be completed.

- ITEM I.** Use the school system name your State uses in its published official listing of its school districts.
- ITEM II.** State the name of the school campus covered by this report. If a school has classroom facilities in more than one geographical location, an Individual School Campus Report form must be filed for each separate location. If more than one school is operated on the same geographical location, an Individual School Campus Report form must be filed for each separate school.
- ITEM III.** Give the street address of the school campus covered by this report. (Enter P.O. Box if there is no street address).
- ITEM IV.** Complete the address. Do not forget to give the zip code.
- ITEM V.** Put an "X" in EVERY box which indicates a grade offered at this school campus. If the school is totally or partially ungraded, do not check the grades covered by the ungraded span. For example, if the school is an entirely ungraded elementary school, check only "Ungraded." If an elementary school offers grades 1 and 2 individually and grades 5 and 6 in an ungraded structure, then check "1", "2", and "Ungraded."

In addition, if special education programs and/or vocational technical programs are offered at this school campus, check the appropriate boxes.

Do NOT use percentages, average daily attendance, average daily membership, or year-end enrollments. Please do NOT leave any lines blank.

Do not report adults.

If pupils are full-time in the system and part-time at more than one school, count them at their home-based school only.

ITEM VII. Report in each column, the number of pupils who were not promoted at the end of the last school term. Report only those pupils who were assigned to the same grade this school term as the last. Do not report those pupils who were promoted but are repeating a particular subject. If this school is entirely ungraded, this question is to be omitted and enter "Not Applicable." If this school is partially ungraded, report the information for the graded portion. If no pupils were retained, enter "0".

ITEM VIII. Report in each column, the number of pupils in each of grades 3, 6, 9, and 12. If some of the grades 3, 6, 9, or 12 is offered, report the number of pupils in the lowest grade offered except pre-kindergarten and kindergarten, and name the grade. If this school is entirely ungraded, this question is to be omitted. If this school is partially ungraded, report the information for the graded portion.

ITEM IX. Report in each column the number of pupils enrolled in the specific types of special education programs at this school campus. Each pupil is to be counted only ONCE; pupils with multiple handicaps are to be reported in the order of program listing on the survey form; e.g. if the pupil is enrolled in an EMR or EMH program, as well as one of the physically handicapped programs, count in Line A, etc.

Line A. Report in each column, the number of pupils enrolled in Educable Mentally Retarded (EMR) or Educable Mentally Handicapped (EMH) classes for any part of the school day. If there are no EMR or EMH classes at this school campus, enter "0".

Line B. Report in each column the number of pupils enrolled in Trainable Mentally Retarded (TMR) or Trainable Mentally Handicapped (TMH) classes for any part of the school day. If there are no TMR or TMH classes at this school campus, enter "0".

Line C. Report in each column the number of pupils enrolled for any part of the school day in other special education programs who fall into one or more of the following categories: emotionally disturbed, social maladjusted, underachievers, and/or slow learners. (Pupils in special programs should only be counted if these programs are part of the general education

INSTRUCTIONS CONTINUED

Line D. Report in each column, the number of pupils in programs for physical, health, sensory, and related handicaps. This includes all pupils in programs for: blindness, deafness, hard of hearing, speech impaired, visually impaired, crippled, or other health impaired (such as epilepsy, diabetes, or rheumatic) requiring special programs.

Line E. Report in each column, the number of pupils in programs for specific learning disabilities. This includes all pupils who have been diagnosed as having one or more of the following handicaps: perceptual-motor, brain dysfunction, dyslexia, developmental aphasia. This category does NOT include the following handicaps: mental retardation, emotional disturbance, environmental disadvantages.

ITEM X. Line A. Report in each column the number of pupils who have been suspended from any regular class program for at least one day and not more than 30 consecutive school days during the previous school year. Count each suspended pupil once, regardless of the number of times that pupil was suspended.

Line B. Report in each column the total number of suspension days from any regular class program during the previous school year. These numbers are to be obtained by adding together the total number of days suspended during the previous school year for all pupils within each racial/ethnic category.

ITEM XI. Line A.1. Report the number of physical education classes, sections, or instructional groupings at this school campus.

Line A.2. Report the number of physical education classes, sections, or instructional groupings at this school campus which are comprised of 80 percent or more of pupils of one sex.

Line B.1. Report the number of all other classes, sections, or instructional groupings at this school campus.

Line B.2. Report the number of all other classes, sections, or instructional groupings at this school campus which are comprised of 80 percent or more pupils of one sex.

ITEM XII. Report the number of pupils currently in membership at this school campus who were transported at public expense to this school campus today. As with membership data, this question should be answered as of October 1, 1974, or the nearest possible date to October 1. Do NOT include field trips, trips to athletic events or other trips of a similar nature.

Include also pupils who are currently paying their own transportation expenses, but will be reimbursed from public expense funding. If there are no pupils transported at public expense, enter "0" in this box.

ITEM XIII. Answer YES to Line A if any form of ability grouping practice is used at this school campus to place pupils in classes or sections as part of the regular school program. If YES is checked then put an "x" in the appropriate box or boxes in Line B. If this school is totally ungraded, Line A must be answered, but Line B is to be omitted. If this school is partially ungraded, both Line A and Line B must be completed for the graded portion.

Ability grouping is defined as the practice of organizing classroom groups to put together children who have most nearly the same standing on measures or judgments of learning achievement or capability. Grouping or regrouping within a classroom for instruction in particular subjects is not considered to be ability grouping.

ITEM XIV. Answer this question for grades 3, 6, and 9 if taught at this school campus. If none of these grades is offered at this school campus, or if the school is partially ungraded, answer for the lowest grade offered except pre-kindergarten and kindergarten.

If this question is answered for the lowest grade offered only, complete part A only. Be sure to report the overall present minority within the grade being reported. Also indicate the grade level being reported in the appropriate space.

All those pupils (and only those pupils) who have been identified as American Indian, Black American, Asian American, or Spanish Surnamed American are to be counted as minority pupils.

Any grade reported here that contains departmentalized instruction will involve counting each pupil as many times as he or she changes classes, since all courses in all subject matters must be reported.

Include information for all pupils in every class or section. If a class or section has at least one pupil in the grade specified, count all of that class or section. For example, if there are five grade-three pupils in a class with 25 grade-four pupils, report all 30 pupils in that class as part of the grade-three information.

If the school is totally ungraded, consider as a class each instructional grouping during the first half hour of the day and report all classes regardless of the subject matter. In this case, complete only part A, check box 2, and indicate "ungraded" where the specific grade level is requested. Be sure to report the overall present minority of the school.

If classroom groupings vary from day to day or week to week, report for the classroom groupings that exist on October 1 or on the nearest possible date to October 1.

This question may be omitted if the entire pupil membership at this school campus consists of only one racial/ethnic group (only one entry in item VI, Column 1 through Column 5). Whenever two or more racial/ethnic groups attend this school campus (item VI, Column 1 through Column 5) this question must be completed.

For each appropriate grade, this question is to be answered for all courses regardless of subject matter. To accurately answer this question, the percent of pupils in each class, section, and instructional grouping who are members of a minority group (American Indian, Asian American, Black American, or Spanish Surnamed American) must be determined. The requested information (number of classes, number of minority pupils, and total number of pupils) must then be entered in the appropriate line as determined by the present minority.

Step-by-step instructions for reporting a particular grade level are given below.

Step 1: Identify all classes, sections, or instructional groupings that contain at least one pupil in the grade being reported. (Example: All classes, sections, or instructional groupings containing at least one grade-three pupil must be identified in order to collect the information necessary for reporting grade three.)

Step 2: For each class, section, and instructional grouping identified in Step 1, the following information must be obtained:

- a. The number of pupils in the class, section, or instructional grouping identified as belonging to one of the four specified minority groups.
- b. The total number of pupils in the class, section, or instructional grouping.
- c. The percent of the pupils in the class, section, or instructional grouping who are minority. This percent is to be obtained by dividing the number obtained in "a" by the number obtained in "b".

Step 3: Determine in which of the twelve ranges of percent minority specified on the form each class, section, and instructional grouping falls and group the classes, sections, and instructional groupings accordingly.

Step 4: Within each of the twelve ranges of percent minority, add together the following three items:

1. Number of classes, sections, and instructional groupings.
2. Number of minority pupils in all of these classes, sections, and instructional groupings.
3. Total number of pupils in all of these classes, sections, and instructional groupings.

Enter the results of these additions for each of the twelve ranges of percent minority in Columns 1, 2, and 3.

Step 5: Add the numbers in each column and enter the totals on Line 13. (See attached example)

SUBMISSION OF REPORT: It is the responsibility of each school system to submit this report by October 15, 1974. If the report is completed at the individual school campus, it should be returned to the superintendent's office for forwarding to HEW. Before submitting this report, check the accuracy and completeness of each item, particularly the totals. Errors or omissions may require a re-filing of the form. (Keep file copy for reference.)

DEFINITIONS

SCHOOL: For the purposes of this report, a school is a division of the school system consisting of students comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant.

RACIAL/ETHNIC CATEGORIES: Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

- American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin - regardless of race.
- Black, Not of Hispanic Origin: A person having origins in any of the Black racial groups of Africa.
- White, Not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

"HANDICAPPED PUPILS" AND "PUPILS REQUIRING SPECIAL EDUCATION": A distinction is to be made between these terms. For the purposes of this report, a "handicapped pupil" is one who has one or more of the exceptionalities defined in the cover sheet of AS/CR 102 form. A "pupil requiring special education" is a handicapped pupil who has been identified, through evaluation, as requiring special education.

SPECIAL EDUCATION PROGRAMS: Special education programs are those designed to meet the needs of children with one or more of the exceptionalities defined in the cover sheet of the AS/CR 102 form.

DEFINITIONS

SCHOOL For the purpose of this report, a school is a division of the school system consisting of elementary and/or secondary (or equivalent) students, comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant. Count only units administered by a principal or equivalent.

RACIAL/ETHNIC CATEGORIES Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

- American Indian Or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian Or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands, or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin—regardless of race.
- Black (Not of Hispanic Origin): A person having origins in any of the Black racial groups of Africa.
- White (Not of Hispanic Origin): A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

PROGRAMS FOR THE GIFTED OR TALENTED Those programs designed for pupils who by virtue of outstanding abilities are capable of high performance and who require differentiated educational programs and/or services beyond those normally provided by the regular school program. Such pupils include those with demonstrated achievement and/or potential ability in any of the following areas singly or in combination: 1) general intellectual ability, 2) specific academic aptitude, 3) creative or productive thinking, 4) leadership ability, 5) visual or performing arts, 6) psychomotor abilities. (Do not include honors, advanced placement, or other enrichment programs for the gifted or talented that are not special programs.)

HANDICAPPED PUPILS (STUDENTS, CHILDREN) and SPECIAL EDUCATION PUPILS For purposes of this report the terms are synonymous. A special education pupil is one with one or more of the handicapping conditions defined below and who has been evaluated as requiring special educational services because of this (these) condition(s).

HANDICAPPING CONDITIONS The following definitions are to be used in preparing this report:

- Educable mentally retarded (or handicapped)—a condition of mental retardation which includes pupils who are educable in the academic, social, and occupational areas even though moderate supervision may be necessary.
- Trainable mentally retarded (or handicapped)—a condition of mental retardation which includes pupils who are capable of only very limited meaningful achievement in the traditional basic academic skills but who are capable of profiting from programs of training in self-care and simple job or vocational skills.
- Hard of hearing—a hearing impairment, whether permanent or fluctuating, which adversely affects a child's educational performance but which is not included under the definition of "deaf" in this section.
- Deaf—a hearing impairment which is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, and which adversely affects educational performance.
- Speech impaired—a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, which adversely affects a child's educational performance.
- Visually handicapped—a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes both partially seeing and blind children.
- Seriously emotionally disturbed—a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects educational performance: an inability to learn which cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes children who are schizophrenic.
- Ortopoecially impaired—a severe orthopedic impairment which adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns which cause contractures).

Instructions for Form ED 102 (continued)

- Other health impaired—limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, autism, or diabetes, which adversely affects a child's educational performance.
- Specific learning disability—a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations. The term includes such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, or of environmental, cultural or economic disadvantage.
- Deaf-blind—concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for deaf or blind children.
- Multihandicapped—concomitant impairments (such as mentally retarded-blind, mentally retarded-orthopedically impaired, etc.), the combination of which causes such severe educational problems that they cannot be accommodated in special education programs solely for one of the impairments. The term does not include deaf-blind children. For the purposes of this report, this category should include those pupils who are severely or profoundly mentally retarded.

SPECIAL EDUCATION PROGRAMS Special education programs are those designed to meet the needs of children with one or more of the handicapping conditions above.

INSTRUCTIONS FOR QUESTIONS ON FORM ED 102

Questions 1 through 4. Self-explanatory.

Question 5. Pupil Statistics. Complete the chart for racial and ethnic categories and, where indicated, for males and females and for handicapped pupils. Refer to the definitions above of racial and ethnic categories and of the term "handicapped". Leave no blanks; where the answer is none, enter "0". Handicapped pupils counted in column 9 will also be included in columns 1-8, as appropriate.

- Pupils in Membership.** The total number of pupils in membership on or about December 1, 1982, for each racial and ethnic category and for males and females. In each box report total membership—not percentages, average daily attendance, average daily membership, or year-end enrollment. Count each pupil as one, including any who attend less than a full day, such as kindergartners.
- Pupils in Need of Special Language Services.** Enter in b(1) the number of pupils who have been assessed as having limited or no ability to understand, speak, or read English, and who have a primary or home language other than English. Enter in b(2) the number of pupils reported in b(1) who are enrolled in a special language services program (i.e., English-As-A-Second-Language, High Intensity Language Training, or a bilingual program) or any non-language class taught in a language other than English. Do not count pupils enrolled in a class to learn a language other than English.
- Pupils in Programs for the Gifted or Talented.** The number of pupils enrolled in programs for the gifted or talented. Count pupils once regardless of the number of programs in which they are enrolled.

If Prior Year Data for 5.d. and 5.e. are not available, alternate reporting can be negotiated by writing or calling Mrs. Nancy Russell, Office for Civil Rights, Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202-2516; Telephone (202) 245-0198.

- Pupils Who Received Corporal Punishment.** The number of pupils who received corporal punishment during the 1981-82 school year. Corporal punishment is the infliction of physical punishment to the body of a student by a school employee for disciplinary reasons. Count pupils once regardless of the number of times they were punished.
- Pupils Suspended.** The number of pupils who were suspended from this school for at least one day during the 1981-82 school year. Suspension is the temporary exclusion of a student from school for disciplinary reasons for one full school day or longer. This would also include in-school suspensions that remove a student from his or her regular classes for one full school day or longer. Count pupils once regardless of the number of times they were suspended.

Question 6. Self-explanatory.

Question 7. Special Education Programs. Please read the definitions of the handicapping conditions on the first page of this instruction sheet. Do not complete darkened areas.

- Count pupils participating in special education programs operated at this school only. Include those pupils who receive special education services in their regular classrooms as well as those who receive such services in special classrooms.
- If any child participates in two or more programs, include him or her in the one program in which he or she spends the most time. Example: John Doe spends 10 hours per week in a program for the educable mentally retarded (EMR) and 6 hours per week in a program for the orthopedically impaired; he would be reported in line (a) for EMR, since he spends most of his time in that program.
- In column 1, enter in each row the total number of pupils participating in each program, for rows a through i. In row m, enter the total of rows a through i.
- In column 2 through 6, enter the number of pupils in each racial/ethnic category in rows a, b, e, g, and j (racial/ethnic data is not needed for the other rows). For each row in which data must be entered, the entries in columns 2 through 6 must equal the entry in column 1.
- In columns 7 and 8, enter the number of male and female pupils in the special education programs defined in rows a, b, e, g, and j. For each of these programs, the sum of columns 7 and 8 must equal the entry in column 1.
- In column 9, enter for the programs defined in rows a, b, e, g, and j, the number of pupils who have also been identified in item 5b(1) as requiring special language services programs. Any such pupils will already have been counted in columns 2 through 8.
- In columns 10 and 11, enter the number of students who spend only a portion of the day in special education in column 10 and those who spend a full school day in special education in column 11. The sum of columns 10 and 11, for each row, must equal the total in column 1.

Question 8. Selected Course Enrollment. Complete the chart for pupils enrolled in all-male classes, all-female classes, and for males and females in mixed classes in (a) home economics, (b) industrial arts, and (c) physical education.

- Enter the number enrolled in grades 7 through 9. For example, if this school serves grades 6-7-8, include only those pupils in grades 7 and 8. In a, include occupational home economics courses.

Question 9. High School Graduates. Complete the chart for those who received a regular high school diploma during the 1981-82 school year. For purposes of this question, a high school diploma is a diploma granted upon the successful completion of a prescribed secondary program of studies. This includes, where required as a prerequisite, the successful completion of a minimum competency test.

- This question is not to be answered by elementary schools, middle schools, or junior high schools.

Do not include those who received other than a high school diploma, such as those who received a special diploma, a certificate of attendance, or a certificate of completion.

- Provide the information by racial/ethnic categories in columns 1 through 5, the total in column 6, and by sex in columns 7 and 8.

Please check the completeness and accuracy of each item reported. Errors or omissions may require a refile of this form.

DEFINITIONS

SCHOOL For the purpose of this report, a school is a division of the school system consisting of elementary and/or secondary (or equivalent) students, comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant. Count only units administered by a principal or equivalent.

RACIAL/ETHNIC CATEGORIES Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.

— **Asian or Pacific Islander:** A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands, or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

— **Hispanic:** A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin—regardless of race.

— **Black (Not of Hispanic Origin):** A person having origins in any of the Black racial groups of Africa.

— **White (Not of Hispanic Origin):** A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

PROGRAMS FOR THE GIFTED OR TALENTED Those programs designed for pupils who by virtue of outstanding abilities are capable of high performance and who require differentiated educational programs and/or services beyond those normally provided by the regular school program. Such pupils include those with demonstrated achievement and/or potential ability in any of the following areas singly or in combination: 1) general intellectual ability, 2) specific academic aptitude, 3) creative or productive thinking, 4) leadership ability, 5) visual or performing arts, 6) psychomotor abilities.

HANDICAPPED PUPILS (STUDENTS, CHILDREN) and SPECIAL EDUCATION PUPILS For purposes of this report the terms are synonymous. A special education pupil is one with one or more of the handicapping conditions defined below and who has been evaluated as requiring special educational services because of this (these) condition(s).

HANDICAPPING CONDITIONS The following definitions are to be used in preparing this report:

— **Educable mentally retarded (or handicapped)**—a condition of mental retardation which includes pupils who are educable in the academic, social, and occupational areas even though moderate supervision may be necessary.

— **Trainable mentally retarded (or handicapped)**—a condition of mental retardation which includes pupils who are capable of only very limited meaningful achievement in the traditional basic academic skills but who are capable of profiting from programs of training in self-care and simple job or vocational skills.

— **Hard of hearing**—a hearing impairment, whether permanent or fluctuating, which adversely affects a child's educational performance but which is not included under the definition of "deaf" in this section.

— **Deaf**—a hearing impairment which is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, which adversely affects educational performance.

— **Speech impaired**—a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, which adversely affects a child's educational performance.

— **Visually handicapped**—a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes both partially seeing and blind children.

— **Seriously emotionally disturbed**—a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects educational performance: an inability to learn which cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes children who are schizophrenic.

— **Orthopedically impaired**—a severe orthopedic impairment which adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns which cause contractures).

- Other health impairments—limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, autism, or diabetes, which adversely affects a child's educational performance.
- Specific learning disability— a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations. The term includes such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, or of environmental, cultural or economic disadvantage.
- Deaf-blind—concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for deaf or blind children.
- Multihandicapped—concomitant impairments (such as mentally retarded-blind, mentally retarded-orthopedically impaired, etc.), the combination of which causes such severe educational problems that they cannot be accommodated in special education programs solely for one of the impairments. The term does not include deaf-blind children. For the purposes of this report, this category should include those pupils who are severely or profoundly mentally retarded.

SPECIAL EDUCATION PROGRAMS Special education programs are those designed to meet the needs of children with one or more of the handicapping conditions above.

INSTRUCTIONS FOR QUESTIONS ON ED102

Questions 1 through 3. Self-explanatory.

Question 4. GRADES OFFERED. In the boxes provided, check all grades offered in this school. Please note. The first box is to be checked by schools that offer *only* special education classes.

Question 5. PUPIL STATISTICS. Complete the chart for racial and ethnic categories and, where indicated, for males and females. Refer to the definitions above of racial and ethnic categories. Leave no blanks; where the answer is none, enter "0".

- Pupils in Membership.* The total number of pupils in membership on or about October 1, 1984, for each racial and ethnic category and for males and females. In each box report total membership—not percentages, average daily attendance, average daily membership, or year-end enrollment. Count each pupil as one, including any who attend less than a full day, such as kindergarteners.
- Pupils in Need of Language Assistance Programs.* Enter in b(1) the number of national origin minority pupils who are so limited in their English proficiency that they cannot effectively or equally participate in the school's regular instruction program. Enter in b(2) the number of pupils reported in b(1) who are enrolled in a program of language assistance (i.e., English-as-a-Second-Language, High Intensity Language Training, or a bilingual education program). Do not count pupils enrolled in a class to learn a language other than English.
- Pupils in Programs for the Gifted or Talented.* The number of pupils enrolled in programs for the gifted or talented. Count pupils once regardless of the number of programs in which they are enrolled.
- Pupils Who Received Corporal Punishment.* The number of pupils who received corporal punishment during the 1983-84 school year. Corporal punishment is the infliction of physical punishment to the body of a student by a school employee for disciplinary reasons. Count pupils once regardless of the number of times they were punished.
- Pupils Suspended.* The number of pupils who were suspended from this school for at least one day during the 1983-84 school year. Suspension is the temporary exclusion of a student from school for disciplinary reasons for one full school day or longer. Count pupils once regardless of the number of times they were suspended.

Question 6. PUPIL ASSIGNMENT. This question is to be completed by all schools that offer any two elementary grades between and including one through six. Select the lowest of those grades that your school offers and the highest. Do not include kindergarten. For example, if your school offers K-12, select grades one and six for the chart. If your school offers 1-5, select grades one and five.

Question 7. SPECIAL EDUCATION PROGRAMS. Please read the definitions of the handicapping conditions on the first page of this instruction sheet. Do not complete darkened areas.

- Count pupils participating in special education programs operated at this school only. Include those pupils who receive special education services in their regular classrooms as well as those who receive such services in special classrooms.
- If any child participates in two or more programs, include him or her in the one program in which he or she spends the most time. Example: John Doe spends 10 hours per week in a program for the educable mentally retarded and 6 hours per week in a program for the orthopedically impaired; he would be reported in line (a) for the educable mentally retarded, since he spends most of his time in that program.
- In column 1, enter in each row the total number of pupils participating in each program, for rows a through i. In row m, enter the total of rows a through i.
- In columns 2 through 6, enter the number of pupils in each racial/ethnic category in rows a, b, e, g, and j (racial/ethnic data is not needed for the other rows). For each row in which data must be entered, the entries in columns 2 through 6 must sum to the entry in column 1.
- In columns 7 and 8, enter the number of male and female pupils in the special education programs defined in rows a, b, e, g, and j. For each of these programs, the sum of columns 7 and 8 must equal the entry in column 1.
- In column 9, enter for the programs defined in rows a, b, e, g, and j, the number of pupils who have also been identified in item 5b(1) as limited in English proficiency. Any such pupils will already have been counted in columns 2 through 8.
- In columns 10 and 11, enter the number of students who spend only a portion of the day in special education in column 10 and those who spend a full school day in special education in column 11. The sum of columns 10 and 11, for each row, must equal the total in column 1.

Question 8. SELECTED COURSE ENROLLMENT. Complete the chart for pupils enrolled in all-male classes, all-female classes, and for males and females in mixed classes in (a) home economics, (b) industrial arts, and (c) physical education.

- Enter the number enrolled in grades 7 through 9. For example, if this school serves grades 6-7-8, include only those pupils in grades 7 and 8. In (a), include occupational home economics.

Question 9. HIGH SCHOOL GRADUATES. Complete the chart for those who received a regular high school diploma during the 1983-84 school year. A high school diploma, for purposes of this question, is a diploma granted upon the successful completion of a prescribed secondary program of studies. This includes, where required as a prerequisite, the successful completion of a minimum competency test.

This question is not to be answered by elementary schools, middle schools, or junior high schools.

Do not include those who received other than a high school diploma, such as those who received a special diploma, a certificate of attendance, or a certificate of completion.

Please check the completeness and accuracy of each item reported. Errors or omissions may require a refile of this form.

DEFINITIONS

SCHOOL: For the purposes of this report, a school is a division of the school system consisting of students comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant.

RACIAL/ETHNIC CATEGORIES: Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

- American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin - regardless of race.
- Black, Not of Hispanic Origin: A person having origins in any of the Black racial groups of Africa.
- White, Not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

"HANDICAPPED PUPILS" AND "PUPILS REQUIRING SPECIAL EDUCATION": A distinction is to be made between these terms. For the purposes of this report, a "handicapped pupil" is one who has one or more of the exceptionalities defined in the cover sheet of AS/CR 102 form. A "pupil requiring special education" is a handicapped pupil who has been identified, through evaluation, as requiring special education.

SPECIAL EDUCATION PROGRAMS: Special education programs are those designed to meet the needs of children with one or more of the exceptionalities defined in the cover sheet of the AS/CR 102 form.

INSTRUCTIONS FOR COMPLETING FORM AS/CR 101

 - Total Participating in Special Education.** Of the children included in (1), the number who are participating in a special education program or are receiving special education services provided either by this school system or by another system or other entity, including a private school or a State institution. (This number is the sum of children who are served outside this system plus the children reported in question 8 of the attached AS/CR 102 forms minus any children served in your schools who are legal residents of other school systems.)
 - Pupils Attending Elsewhere for Special Education.** Of the children included in (2) above, the number who, for the sole purpose of receiving full- or part-time special education, participate full time in education programs not operated by this school system.
 - Pupils Supported by Other Than Public Funds.** Of the pupils reported in (3) above, the number for whom full payment of the costs (tuition, non-medical care, or room and board) is not provided by this system, or by the State education agency, or from other public funds.
- Evaluation and Placement**
 - Children Not Yet Evaluated.** Number of children through age 21 who have been referred for evaluation to determine if they require special education but who have not yet been evaluated. Do not count here any children included in 5a above.
 - Children Not Receiving Any Educational Services.** Since the beginning of the 1980-81 school year, the number of children through the age of 21 who were being evaluated for special education or who have been identified as requiring special education and who were receiving no educational services either in school or through home-bound instruction for more than 10 school days.

DEFINITIONS

SCHOOL For the purpose of this report, a school is a division of the school system consisting of elementary and/or secondary (or equivalent) students, comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant. Count only units administered by a principal or equivalent.

RACIAL/ETHNIC CATEGORIES Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

- American Indian Or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian Or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands, or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin—regardless of race.
- Black (Not of Hispanic Origin): A person having origins in any of the Black racial groups of Africa.
- White (Not of Hispanic Origin): A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

PROGRAMS FOR THE GIFTED OR TALENTED Those programs designed for pupils who by virtue of outstanding abilities are capable of high performance and who require differentiated educational programs and/or services beyond those normally provided by the regular school program. Such pupils include those with demonstrated achievement and/or potential ability in any of the following areas singly or in combination: 1) general intellectual ability, 2) specific academic aptitude, 3) creative or productive thinking, 4) leadership ability, 5) visual or performing arts, 6) psychomotor abilities. (Do not include honors, advanced placement, or other enrichment programs for the gifted or talented that are not special programs.)

HANDICAPPED PUPILS (STUDENTS, CHILDREN) and SPECIAL EDUCATION PUPILS For purposes of this report the terms are synonymous. A special education pupil is one with one or more of the handicapping conditions defined below and who has been evaluated as requiring special educational services because of this (these) condition(s).

HANDICAPPING CONDITIONS The following definitions are to be used in preparing this report:

- Educable mentally retarded (or handicapped)—a condition of mental retardation which includes pupils who are educable in the academic, social, and occupational areas even though moderate supervision may be necessary.
- Trainable mentally retarded (or handicapped)—a condition of mental retardation which includes pupils who are capable of only very limited meaningful achievement in the traditional basic academic skills but who are capable of profiting from programs of training in self-care and simple job or vocational skills.
- Hard of hearing—a hearing impairment, whether permanent or fluctuating, which adversely affects a child's educational performance but which is not included under the definition of "deaf" in this section.
- Deaf—a hearing impairment which is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, and which adversely affects educational performance.
- Speech impaired—a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, which adversely affects a child's educational performance.
- Visually handicapped—a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes both partially seeing and blind children.
- Seriously emotionally disturbed—a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects educational performance: an inability to learn which cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes children who are schizophrenic.
- Orthopedically impaired—a severe orthopedic impairment which adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns which cause contractures).

Instructions for Form ED 102 (continued)

- Other health impaired—limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, autism, or diabetes, which adversely affects a child's educational performance.
- Specific learning disability—a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations. The term includes such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, or of environmental, cultural or economic disadvantage.
- Deaf-blind—concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for deaf or blind children.
- Multihandicapped—concomitant impairments (such as mentally retarded-blind, mentally retarded-orthopedically impaired, etc.), the combination of which causes such severe educational problems that they cannot be accommodated in special education programs solely for one of the impairments. The term does not include deaf-blind children. For the purposes of this report, this category should include those pupils who are severely or profoundly mentally retarded.

SPECIAL EDUCATION PROGRAMS Special education programs are those designed to meet the needs of children with one or more of the handicapping conditions above.

INSTRUCTIONS FOR QUESTIONS ON FORM ED 102

Questions 1 through 4. Self-explanatory.

Refer to the definitions above of racial and ethnic categories and of the term "handicapped". Leave no blanks; where the answer is none, enter "0". Handicapped pupils counted in column 9 will also be included in columns 1-8, as appropriate.

- Pupils in Membership.** The total number of pupils in membership on or about December 1, 1982, for each racial and ethnic category and for males and females. - Pupils in Programs for the Gifted or Talented.** The number of pupils enrolled in programs for the gifted or talented. Count pupils once regardless of the number of programs in which they are enrolled.

If Prior Year Data for 5.d. and 5.e. are not available, alternate reporting can be negotiated by writing or calling Mrs. Nancy Russell, Office for Civil Rights, Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202-2516; Telephone (202) 245-0198.

- Pupils Who Received Corporal Punishment.** The number of pupils who received corporal punishment during the 1981-82 school year. Corporal punishment is the infliction of physical punishment to the body of a student by a school employee for disciplinary reasons. Count pupils once regardless of the number of times they were punished.
- Pupils Suspended.** The number of pupils who were suspended from this school for at least one day during the 1981-82 school year. Suspension is the temporary exclusion of a student from school for disciplinary reasons for one full school day or longer. This would also include in-school suspensions that remove a student from his or her regular classes for one full school day or longer. Count pupils once regardless of the number of times they were suspended.

Question 6. Self-explanatory.

Question 7. Special Education Programs. Please read the definitions of the handicapping conditions on the first page of this instruction sheet. Do not complete darkened areas.

- Count pupils participating in special education programs operated *at this school only*. Include those pupils who receive special education services in their regular classrooms as well as those who receive such services in special classrooms.
- If any child participates in two or more programs, include him or her in the one program in which he or she spends the most time. Example: John Doe spends 10 hours per week in a program for the educable mentally retarded (EMR) and 6 hours per week in a program for the orthopedically impaired; he would be reported in line (a) for EMR, since he spends most of his time in that program.
- In column 1, enter in each row the total number of pupils participating in each program, for rows a through i. In row m, enter the total of rows a through i.
- In column 2 through 6, enter the number of pupils in each racial/ethnic category in rows a, b, e, g, and j (racial/ethnic data is not needed for the other rows). For each row in which data must be entered, the entries in columns 2 through 6 must equal the entry in column 1.
- In columns 7 and 8, enter the number of male and female pupils in the special education programs defined in rows a, b, e, g, and j. For each of these programs, the sum of columns 7 and 8 must equal the entry in column 1.
- In column 9, enter for the programs defined in rows a, b, e, g, and j, the number of pupils who have also been identified in item 5b(1) as requiring special language services programs. Any such pupils will already have been counted in columns 2 through 8.
- In columns 10 and 11, enter the number of students who spend only a portion of the day in special education in column 10 and those who spend a full school day in special education in column 11. The sum of columns 10 and 11, for each row, must equal the total in column 1.

Question 8. Selected Course Enrollment. Complete the chart for pupils enrolled in all-male classes, all-female classes, and for males and females in mixed classes in (a) home economics, (b) industrial arts, and (c) physical education.

- Enter the number enrolled in grades 7 through 9. For example, if this school serves grades 6-7-8, include only those pupils in grades 7 and 8. In a, include occupational home economics courses.

Question 9. High School Graduates. Complete the chart for those who received a regular high school diploma during the 1981-82 school year. For purposes of this question, a high school diploma is a diploma granted upon the successful completion of a prescribed secondary program of studies. This includes, where required as a prerequisite, the successful completion of a minimum competency test.

- This question is not to be answered by elementary schools, middle schools, or junior high schools.
- Do not include those who received other than a high school diploma, such as those who received a special diploma, a certificate of attendance, or a certificate of completion.
- Provide the information by racial/ethnic categories in columns 1 through 5, the total in column 6, and by sex in columns 7 and 8.

DEFINITIONS

SCHOOL For the purpose of this report, a school is a division of the school system consisting of elementary and/or secondary (or equivalent) students, comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant. Count only units administered by a principal or equivalent.

RACIAL/ETHNIC CATEGORIES Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.

— **Asian or Pacific Islander:** A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands, or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

— **Hispanic:** A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin—regardless of race.

— **Black (Not of Hispanic Origin):** A person having origins in any of the Black racial groups of Africa.

— **White (Not of Hispanic Origin):** A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

PROGRAMS FOR THE GIFTED OR TALENTED Those programs designed for pupils who by virtue of outstanding abilities are capable of high performance and who require differentiated educational programs and/or services beyond those normally provided by the regular school program. Such pupils include those with demonstrated achievement and/or potential ability in any of the following areas singly or in combination: 1) general intellectual ability, 2) specific academic aptitude, 3) creative or productive thinking, 4) leadership ability, 5) visual or performing arts, 6) psychomotor abilities.

HANDICAPPED PUPILS (STUDENTS, CHILDREN) and SPECIAL EDUCATION PUPILS For purposes of this report the terms are synonymous. A special education pupil is one with one or more of the handicapping conditions defined below and who has been evaluated as requiring special educational services because of this (these) condition(s).

HANDICAPPING CONDITIONS The following definitions are to be used in preparing this report:

— **Educable mentally retarded (or handicapped)**—a condition of mental retardation which includes pupils who are educable in the academic, social, and occupational areas even though moderate supervision may be necessary.

— **Trainable mentally retarded (or handicapped)**—a condition of mental retardation which includes pupils who are capable of only very limited meaningful achievement in the traditional basic academic skills but who are capable of profiting from programs of training in self-care and simple job or vocational skills.

— **Hard of hearing**—a hearing impairment, whether permanent or fluctuating, which adversely affects a child's educational performance but which is not included under the definition of "deaf" in this section.

— **Deaf**—a hearing impairment which is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, which adversely affects educational performance.

— **Speech impaired**—a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, which adversely affects a child's educational performance.

— **Visually handicapped**—a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes both partially seeing and blind children.

— **Seriously emotionally disturbed**—a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects educational performance: an inability to learn which cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes children who are schizophrenic.

— **Orthopedically impaired**—a severe orthopedic impairment which adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns which cause contractures).

- Other health impaired - limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, autism, or diabetes, which adversely affects a child's educational performance.
- Specific learning disability - a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations. The term includes such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, or of environmental, cultural or economic disadvantage.
- Deaf-blind - concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for deaf or blind children.
- Multi-handicapped - concomitant impairments (such as mentally retarded-blind, mentally retarded-orthopedically impaired, etc.), the combination of which causes such severe educational problems that they cannot be accommodated in special education programs solely for one of the impairments. The term does not include deaf-blind children. For the purposes of this report, this category should include those pupils who are severely or profoundly mentally retarded.

SPECIAL EDUCATION PROGRAMS Special education programs are those designed to meet the needs of children with one or more of the handicapping conditions above.

INSTRUCTIONS FOR QUESTIONS ON ED102

Questions 1 through 3. Self-explanatory.

Question 4. GRADES OFFERED. In the boxes provided, check all grades offered in this school. Please note. The first box is to be checked by schools that offer *only* special education classes.

Question 5. PUPIL STATISTICS. Complete the chart for racial and ethnic categories and, where indicated, for males and females. Refer to the definitions above of racial and ethnic categories. Leave no blanks; where the answer is none, enter "0".

- Pupils in Membership.** The total number of pupils in membership on or about October 1, 1984, for each racial and ethnic category and for males and females. In each box report total membership—not percentages, average daily attendance, average daily membership, or year-end enrollment. Count each pupil as one, including any who attend less than a full day, such as kindergarteners.
- Pupils in Need of Language Assistance Programs.** Enter in b(1) the number of national origin minority pupils who are so limited in their English proficiency that they cannot effectively or equally participate in the school's regular instruction program. Enter in b(2) the number of pupils reported in b(1) who are enrolled in a program of language assistance (i.e., English-as-a-Second-Language, High Intensity Language Training, or a bilingual education program). Do not count pupils enrolled in a class to learn a language other than English.
- Pupils in Programs for the Gifted or Talented.** The number of pupils enrolled in programs for the gifted or talented. Count pupils once regardless of the number of programs in which they are enrolled.
- Pupils Who Received Corporal Punishment.** The number of pupils who received corporal punishment during the 1983-84 school year. Corporal punishment is the infliction of physical punishment to the body of a student by a school employee for disciplinary reasons. Count pupils once regardless of the number of times they were punished.
- Pupils Suspended.** The number of pupils who were suspended from this school for at least one day during the 1983-84 school year. Suspension is the temporary exclusion of a student from school for disciplinary reasons for one full school day or longer. Count pupils once regardless of the number of times they were suspended.

Question 6. PUPIL ASSIGNMENT. This question is to be completed by all schools that offer any two elementary grades between and including one through six. Select the lowest of those grades that your school offers and the highest. Do not include kindergarten. For example, if your school offers K-12, select grades one and six for the chart. If your school offers 1-5, select grades one and five.

Question 7. SPECIAL EDUCATION PROGRAMS. Please read the definitions of the handicapping conditions on the first page of this instruction sheet. Do not complete darkened areas.

- Count pupils participating in special education programs operated at this school only. Include those pupils who receive special education services in their regular classrooms as well as those who receive such services in special classrooms.
- If any child participates in two or more programs, include him or her in the one program in which he or she spends the most time. Example: John Doe spends 10 hours per week in a program for the educable mentally retarded and 6 hours per week in a program for the orthopedically impaired; he would be reported in line (a) for the educable mentally retarded, since he spends most of his time in that program.
- In column 1, enter in each row the total number of pupils participating in each program, for rows a through i. In row m, enter the total of rows a through i.
- In column 2 through 6, enter the number of pupils in each racial/ethnic category in rows a, b, e, g, and j (racial/ethnic data is not needed for the other rows). For each row in which data must be entered, the entries in columns 2 through 6 must sum to the entry in column 1.
- In columns 7 and 8, enter the number of male and female pupils in the special education programs defined in rows a, b, e, g, and j. For each of these programs, the sum of columns 7 and 8 must equal the entry in column 1.
- In column 9, enter for the programs defined in rows a, b, e, g, and j, the number of pupils who have also been identified in item 5b(1) as limited in English proficiency. Any such pupils will already have been counted in columns 2 through 8.
- In columns 10 and 11, enter the number of students who spend only a portion of the day in special education in column 10 and those who spend a full school day in special education in column 11. The sum of columns 10 and 11, for each row, must equal the total in column 1.

Question 8. SELECTED COURSE ENROLLMENT. Complete the chart for pupils enrolled in all-male classes, all-female classes, and for males and females in mixed classes in (a) home economics, (b) industrial arts, and (c) physical education.

- Enter the number enrolled in grades 7 through 9. For example, if this school serves grades 6-7-8, include only those pupils in grades 7 and 8. In (a), include occupational home economics.

Question 9. HIGH SCHOOL GRADUATES. Complete the chart for those who received a regular high school diploma during the 1983-84 school year. A high school diploma, for purposes of this question, is a diploma granted upon the successful completion of a prescribed secondary program of studies. This includes, where required as a prerequisite, the successful completion of a minimum competency test.

-This question is not to be answered by elementary schools, middle schools, or junior high schools.

- Do not include those who received other than a high school diploma, such as those who received a special diploma, a certificate of attendance, or a certificate of completion.

Please check the completeness and accuracy of each item reported. Errors or omissions may require a re-filing of this form.
